Evaluation Guidelines:

1. The "Skill Level" rating should define a player's overall soccer abilities **as compared against other players in the age group.** Therefore, as a general guideline, teams with "poorer" records should have lower average ratings than should teams with "better" records.
2. The "Attendance" rating should evaluate a player's attendance at both practices & games.
3. The "Attitude" rating is very subjective. Please use it wisely and feel free to elaborate with comments.
4. Rating Scale: 5 = Best 3 = Average 1 = Poorest
